This is precisely what happened last night at the seventh annual Roy Morgan Customer Satisfaction Awards...

At a ceremony in Melbourne, Roy Morgan's CEO Michele Levine presented 32 awards to businesses that consistently outperformed their peers throughout 2017 with their unwavering dedication to satisfying their customers – as judged by these very customers.

Michele Levine, CEO, Roy Morgan, says:

"Now in their seventh year, the Roy Morgan Customer Satisfaction Awards continue to be the benchmark by which customer satisfaction is measured in Australia, New Zealand and Indonesia. Reliable, accurate and totally objective, the Australian awards reflect the experiences of some 50,000 consumers, as aggregated in our Single Source survey over 12 months.

"Big or small, first-timer or veteran champion, the 31 businesses honoured in last night's awards may come from diverse industries but they all share one crucial characteristic: their unrivalled dedication to ensuring their customers are satisfied, and their success as rated by their customers.

"Congratulations to this year's winners: your commitment has clearly been recognised and appreciated by your customers. Keep up the excellent work!"

The Roy Morgan Customer Satisfaction Awards highlight the winners but this is only the tip of the iceberg. Roy Morgan tracks customer satisfaction, engagement, loyalty, advocacy, NPS and Net Trust Score (NTS) across a wide range of industries and brands. This data can be analysed by month for your brand and importantly your competitive set.

How Roy Morgan scores Customer Satisfaction

What constitutes satisfaction?

For each product or service Roy Morgan asks customers to rate that product or service on a scale of: 'very satisfied', 'fairly satisfied', 'neither satisfied nor dissatisfied', 'fairly dissatisfied' and 'very dissatisfied' or 'completely satisfied', 'somewhat satisfied', 'neither satisfied nor dissatisfied', 'not very satisfied' and 'not at all satisfied'. We combine those that were 'fairly satisfied' and 'very satisfied' and calculate this as a percentage of total customers. For every category only customers of that product or service are included.

Collection of satisfaction ratings

Roy Morgan has over 75 years' experience in collecting objective, independent information on consumers. We conduct Australia's largest continuous nationwide single source survey, conducting approximately 50,000 face-to-face interviews with consumers across Australia every year. Customer Satisfaction ratings are collected as a part of these surveys. For more information on how we collect our data, please view the Single Source fact sheet.

Time periods

Roy Morgan continuously monitors customer satisfaction throughout the year. We use cumulative rolling monthly averages to obtain a large enough sample so that smaller or niche brands can be monitored alongside larger ones. Current time periods are determined by each industry and the businesses within that industry; these are generally six or 12 month rolling averages. The specific time periods for the Roy Morgan Customer Satisfaction Awards are published with the results.

Sample sizes

To ensure accuracy in our monitoring Roy Morgan requires that organisations must have a sample of at least 100 customers from Roy Morgan's Single Source survey that have used the products or service of that organisation in any given rolling period. Those sample sizes are published with results.
